

ABS-2D Series

07/23/03 ECN 03-329

ABS-2D Series cabinets are single-row enclosures for use with network and ACS series annunciators. These cabinets are suitable for both surface mount and semi-flush mount applications. Trim ring applications require a minimum distance of 0.875 in. (22.225 mm.) between the wall and the front of an enclosure.

Available in either black or red, enclosures in the ABS-2D Series include a backbox, a locking door with a LEXAN® window, and two keys. Three knockouts on the top of an enclosure and two knockouts on the sides, bottom, and back provide conduit access.

Product information and enclosure dimensions are as follows:

TR-ABS2D	Optional trim ring
CHS-2D	Optional chassis
